Service & Pricing Guide — Jamaica Market Edition

JAMAICA · 2026 · All prices in USD · CONFIDENTIAL

Market Positioning & Rate Rationale

Factor	Jamaica Market Context
Pricing Basis	USD. Standard for B2B and premium commercial engagements in Jamaica.
Market Benchmark	Local Jamaican agencies: \$300–\$2,000 USD for basic websites; \$3,000–\$5,000 USD for custom web applications.
NoDrft Positioning	Operates at the premium tier of the Jamaica market — above all locally-based competition in process rigour, delivery documentation, and QA discipline.
Language	English. All deliverables in standard business English.
Currency Risk	All invoices in USD. Client bears any local JMD conversion.
Payment Terms	40% at contract execution. Balance per milestone schedule. Net 10 days per invoice. Late payment suspends delivery work.

Jamaica's digital agency market lacks structured process, documented QA, and fail-closed release discipline at this price point. NoDrftSystems pricing reflects premium positioning in an underserved tier — not a discount play.

Engagement Models

Model	Best For	Entry Price	Structure	Timeline
Hourly Advisory	Audits, consults, short tasks	From \$140/hr	Time & materials	As needed
Fixed Package	Defined-scope builds	\$1,850 – \$26,500+	Flat fee, bounded scope	1–10 weeks
Retainer	Ongoing support & iteration	\$470 – \$3,300/mo	Monthly, renewable	3-month min.
Phased Build	Large projects in stages	From \$11,200	SOW per phase	2–6 months
Enterprise	Complex multi-system builds	Custom / \$35,000+	Custom SOW + MSA	3–9 months

Hourly Advisory

Session Type	Rate (USD)	Typical Use
Standard Advisory	\$140 / hr	Strategy consult, scope review, decision support
Technical Audit	\$140 / hr	Existing site/system review with written report
Emergency / Rush	\$195 / hr	Same-day or off-hours engagement
Minimum Booking	2 hours	Applies to all hourly engagements

Sessions are pre-paid. Output (notes, recommendations, audit reports) delivered within 24 hours of session.

Fixed Packages — Jamaica Edition

All fixed packages include: scoped SOW, QA multi-pass review, fail-closed release gate, and 30-day post-launch support. No scope expands without a signed Change Order.

Package	Deliverable	Timeline	Jamaica Price
TIER 0 Discovery Sprint	Scoping, architecture brief, SOW inputs. Required entry point for complex builds.	3–5 days	\$1,850
TIER 1 Conversion Landing Page	Single-page conversion asset. Strategy, copy structure, design, CMS, analytics, A/B ready.	5–7 days	\$2,350
TIER 2 Launch Site	5-page website. CMS, analytics, SEO foundation, mobile-first design. Full English delivery.	7 days	\$3,300
TIER 3 Authority Website	10+ pages. Blog/content engine, lead capture, integrations, advanced SEO.	3–4 weeks	\$8,000
TIER 4 Platform Starter	Custom web app. Auth, database (Supabase), API layer, admin panel, React/Next.js.	5–6 weeks	\$13,800
TIER 5 Ecosystem Build	Full-stack platform + mobile API + admin panel + up to 6 integrations. Production-grade.	8–10 weeks	\$26,500

Tier 4 and Tier 5 require a completed Discovery Sprint. Discovery Sprint fee credited toward the build contract.

Add-On Services

Add-On	Jamaica Price	Timeline
Additional revision round	\$335	+2 days
Copywriting (per page)	\$285 – \$570	+3 days
Additional integration	\$1,425 – \$2,375	+3–5 days
E-commerce (Shopify / Stripe)	\$2,090 – \$4,275	+5–10 days
A/B testing setup	\$570	+2 days
Performance audit & optimization	\$760	+3 days
Accessibility audit (WCAG 2.1 AA)	\$570	+2 days
CI/CD pipeline setup	\$1,140	+3 days
Extended post-launch support (+30 days)	\$380/month	Monthly
Rush delivery (50% timeline reduction)	+50% of package fee	Halved

All add-ons require scoped agreement before work begins. Rush delivery is subject to team availability and is not guaranteed at time of inquiry.

Retainer Tiers

Tier	Monthly (USD)	Hours Included	Best For
Maintenance	\$470/mo	~4–6 hrs	Updates, backups, monitoring, minor fixes
Growth	\$1,425/mo	~12–16 hrs	Iteration, feature additions, performance
Full Partner	\$3,300/mo	~28–32 hrs	Ongoing build, strategy, full team access

Retainers require a 3-month minimum commitment. Retainers do not absorb new project builds; those are scoped separately via Change Order.

Risk Pricing Multipliers

Condition	Multiplier
Unclear or shifting requirements at intake	1.2x
More than 3 active stakeholders / approvers	1.2x
Client has had 2+ failed prior builds	1.3x
Compressed timeline (under 50% standard)	1.5x
Legacy codebase integration required	1.3x
Regulated industry (health, finance, legal)	1.25x
Budget not confirmed or partially allocated	Decline or Discovery first

Multipliers are identified at qualification, communicated in the proposal as named line items, and are never hidden or disclosed after contract signing. Multipliers stack.

Universal Exclusions (All Packages)

- Copywriting or proofreading of any written content (unless add-on is purchased)
- Photography, videography, or original illustration
- Logo or brand identity design from scratch
- Native iOS or Android mobile app development
- AI/ML model training, fine-tuning, or data labeling
- Paid advertising campaign management
- GDPR, CCPA, HIPAA, or SOC 2 compliance certification
- Data migration from legacy systems (unless explicitly scoped)
- Ongoing cloud infrastructure management (use retainer)

This document is confidential and prepared exclusively for the named recipient. Pricing is valid for 30 days from issue date. All engagements require a signed MSA + SOW before work begins. NoDrftSystems reserves the right to decline any engagement that does not meet qualification criteria.
